

Dear Colleague:

Our mutual patient, named above, is considering elective cosmetic facial plastic surgery.

In addition to general medical clearance, I would like to request specific advice/clearance for the following issues (if circled):

- Aspirin or Plavix: Ideally held for 7 days preop and 4 days postop
- Coumadin: Ideally held for 4 days preop and resumed 1-2 days postop. If a Lovenox bridge is required, specific recommendations would be greatly appreciated.
- Other issues: _____

If you would be so kind as to send me a copy of your office note documenting your medical evaluation and preoperative clearance as well as any relevant testing, it would be greatly appreciated.

If you have any questions or concerns, please do not hesitate to contact me at any time. My contact information is listed below.

Sincerely,
